INSTRUCTIONS D'ENTRETIEN

ISTRUZIONI DI MANUTENZIONE

Care instructions

You have selected a product with a high-grade surface. Please follow the care instructions below.

The manufacturer does not assume any liability for product damage that arises as a result of incorrect care and handling.

Intended use

The product is exclusively intended to serve as a spray shield and to prevent excessive steam in connection with closed showers.

General information

The design of the shower is not automatically barrier-free. Please bear this in mind during use.

- Make sure that an efficient source of ventilation and an appropriate room temperature are present in your bathroom.
- If necessary, check that all moving parts are sufficiently lubricated.
- Defective or damaged parts must be replaced.

Care instructions for shower enclosures

Please note the following when cleaning shower enclosures:

- Never use cleaning agents that contain chlorine or acid or that are corrosive.
- Never use cleaning agents that are abrasive or may scratch the surface.
- Never use sharp or pointed objects when cleaning.
- Use mild liquid cleaning agents and water.
- Use a soft, lint-free cloth or a non-scratching sponge.
- Remove any substances containing solvents immediately.

Care instructions for glass

Please note the following when cleaning glass:

- Clean the shower enclosure with a glass wiper or a soft, lint-free cloth after every use.
- Use a microfibre cloth to clean satinised glass.
- use a glass cleaner.
- Remove drops from the edges of glass surfaces immediately.

Cleaning surfaces

1

Clean the surfaces. Please follow the corresponding care instructions.

2

Dry the surfaces with a soft, lint-free cloth.
